Career Objective : Aspiring Mobile App Developer seeking a role in a progressive company to apply my skills in app development, backend technologies, and teamwork while growing my expertise.

Skills :

1. Mobile App Development :

- Technologies: Android (Java, Kotlin), iOS (SwiftUI), Firebase, REST APIs, SQLite.
- Testing: Appium, ADB, ExtentReports.
- UI/UX: Animations, Custom Views, Adaptive Layouts.
- Languages & Frontend: Core Java, C, JavaScript, HTML5, CSS3, Bootstrap.
- Database: MySQL.

2. Tools & Platforms:

- Android Studio, IntelliJ IDEA, VS Code, Appium Inspector, ADB.

3. Soft Skills :

- Teamwork, Problem-Solving.
-

Training and Certifications :

1. Mobile App Development Training

RPS Consultancy (Wipro) | Virtually | (August 2024 - November 2024)

- Developed comprehensive skills in mobile app development for both Android and iOS platforms.
- Built applications integrating Firebase for authentication and Core Data for local storage.
- Implemented Appium for mobile testing, generating detailed reports using ExtentReports.

2. Java Full Stack Development

EduLadder Solutions | Nagpur, Maharashtra | (December 2022 - May 2023)

- Gained expertise in frontend and backend integration, MySQL database management, and RESTful API development.
-

Projects :

1. My Notes App :

- Developed an Android app using Java to manage notes with Firebase Authentication and Firestore.
- Features: User registration, secure login, real-time sync, and CRUD operations..
- Demo Link : [My Notes App Demo](#)

2. Fitness Tracker App :

- Designed and developed Fit Life Tracker App for tracking fitness activities like walking, running, swimming, and cycling.
- Features: Fitness profiles, goal tracking, progress logs, notifications, and data visualization.
- Demo Link : [Fitness Tracker App Demo](#)

3. Language Flashcards App :

- Developed an iOS app in SwiftUI for learning programming languages with flashcards and quizzes.
- Features: Secure login, language selection, quiz tracking, and user-friendly UI.
- Demo Link : [Language Flashcards App Demo](#)

4. E-Commerce App Testing :

- Developed an automated test suite for an Android e-commerce app using Appium and Java.
- Features: Tested login, purchase, checkout workflows with TestNG and ExtentReports.
- Demo Link : [E-Commerce App Testing Demo](#)
